MEDICAL SERVICE TERMINAL

PRODUCTS AND SOLUTIONS

/ Medical Service Terminal Products

The Medical Terminal product line is a comprehensive solution for healthcare institutions, including hospitals and primary care centers. Installed in high-traffic areas such as outpatient halls, emergency rooms, clinics, and wards, these terminals offer essential services such as appointment booking, registration, payment processing, report printing, and information inquiry. By optimizing workflows and improving patient interactions, our products empower healthcare providers to deliver superior service quality and achieve greater patient satisfaction.
